BRITAIN SEEKS GREEK SUPPORT

Said to Have Offered Island of Cyprus.

LONDON PAPER PRINTS REPORT

Daily Telegraph Declares That Cession Will Be Made as Soon as Greece Signifies Her Willingness to Cast Her Lot With the Entente Powers.

London, Oct. 21.—Great Britain has made a formal offer of the island of Cyprus to Greece as soon as Greece undertakes to intervene in the war on the side of the allies. The Daily Telegraph makes this announcement.

"Thus far," says the Daily Telegraph, "Greece has not replied to the offer of Cyprus. Our Athens correspondent informs us that it is believed the offer will create an excellent impression in Greece, since it is an actual present concession and not a mere promise, which Germany might suggest and would never be carried out."

The Daily Telegraph, in an editorial, asserts that its report is based on good authority. The newspaper points out that the offer differs from the German offer to Greece, inasmuch as it is not contingent upon the final triumph of the triple entente, but would take effect as soon as Greece performed her part in the suggested agreement.

"The sooner we all recognize that purely chivalrous motives are not prominent in the Balkan politics of today, the better," the Daily Telegraph adds.

"The cession of Cyprus to the state to which most of its inhabitants are related by race and history clearly involves no departure from the principles upon which we have taken our stand from the beginning and it comes with especial happy effect from the power to which Greece owes her possession of the Ionian islands."

Cyprus is the third largest island in the Mediterranean, sixty miles from the coast of Asia Minor. It was administered until Nov. 5, 1914, by Great Britain under a convention concluded with the sultan of Turkey at Constantinople in 1878, but on the outbreak of hostilities with Turkey, on the former date, the island was annexed. The high commissioner, Major Sir J. E. Clausen, is assisted by an executive council.

Cyprus has an area of 3,584 square miles and a population of nearly 300,000.

SPREAD OVER WIDER FRONT

Teutonic Progress in Serbia Is Some What Slow.

London, Oct. 21.—The progress of events in Serbia is surrounded by considerable mystery. The Austro-Germans and Bulgarians are advancing all along the various fronts, but not with the speed anticipated. The Austro-Germans apparently have spread their armies over a wider front, as Berlin reports that they are advancing on Sabatz, which is a long distance west of Belgrade; while for the Bulgarians it is claimed that they have captured Sultan Tepe, southwest of Egri Palanka, and that in advancing toward Kumanovo they took 2,000 prisoners. Both of these places are east of Uskub.

There is still some doubt as to whether they have cut the railway near Vranja, the Serbian government denying the report that they have done so, while other accounts say that the Bulgarians reached the city, but were driven back.

HILLSTROM FACES DEATH

President Notifies Swedish Minister He Cannot Go Further.

Washington, Oct. 21.—President Wilson advised W. A. F. Ekengren, Swedish minister here, that he can do nothing further for Joseph Hillstrom, a Swedish citizen under sentence of death in Utah for murder.

The state now is preparing to carry out the court's sentence.

POETESS OF PASSION ANNOYED BY ADMIRER.

New York, Oct. 21.—On the complaint of Mrs. Robert Wilcox of Short Beach, Conn., (Ella Wheeler Wilcox), the "poetess of passion," a man who said he is Edward Cecil Mosby was arrested in his apartment charged with sending her five threatening and anonymous letters.

"But I have no animosity against her," he said. "I love Ella Wheeler Wilcox."

GENERAL VON KLUCK.

German Officer Is Ready to Resume Active Service.

READY FOR ACTIVE SERVICE

General von Kluck Has Recovered From His Wound.

Berlin, Oct. 21.—General Alexander H. R. von Kluck, the famous commander of the German first army in the drive through Belgium and France in the early months of the war, who was wounded by shrapnel fire on the front in France last spring, received a correspondent of the Overseas News agency on the recent celebration of the fiftieth anniversary of the general's entrance into the German army service.

The general's health is restored and he is ready for a return to duty.

BRITAIN'S ARMS INCREASED

Production Swelled Thirtyfold in One Branch.

London, Oct. 21.—The success attending the appointment of David Lloyd-George as minister of munitions is testified to by the Times' parliamentary correspondent, who says that the production in munitions has increased fourfold and in one highly important branch more than thirtyfold.

"The ministry of munitions," the correspondent adds, "justified itself in the recent heavy fighting on the western front."

"The unlimited supply of munitions which the army requires, however, has been by no means reached yet. The labor problem still presents difficulties which the ministry is now devoting special attention to. The personnel of the department also is being constantly strengthened."

WILSON JOINED POPE'S PLEA

Interceded With Kaiser on Behalf of Nine Persons.

Berlin, Oct. 21.—The Overseas News agency says that President Wilson, in addition to Pope Benedict, interceded on behalf of the Countess de Belleville, Miss Thulier, and several other persons who were court-martialed in Belgium and convicted on the charge of having abetted in the escape of Belgian and French prisoners and the execution of whose sentences were postponed by Emperor William that he might make a detailed examination in the cases.

SETTLERS RAISE PROTEST

Want Payment for Fort Peck Reservation Lands Waived.

Wolf Point, Mont., Oct. 21.—Settlers on the Fort Peck Indian reservation, opened two years ago, met here, framing resolutions to the federal land department asking relief from payments that are demanded of the homesteaders for their lands.

Under the terms by which the land was opened the settlers were compelled to pay from \$2.50 to \$7 an acre, in addition to fulfilling the regulations prescribed for homesteading.

The settlement of the reservation has been seriously retarded by the fact that the lands have been held at such a high price.

There is much land on the reservation that has not been filed upon because of the price the homesteader would be compelled to pay.

Bulgars Invade Macedonia.

Berlin, Oct. 21.—Wireless reports from Sofia say that the Bulgarians have entered Macedonian towns. Reports from Nish, received at Raduevatz, say that the diplomatic and national archives have been transferred to Monastir. The Serbian national bank and the government remain for the present at Nish.

Greeks at King's Palace Demanding War

Premier Eleutherios Venizelos, who has just resigned

Prince Nicholas, Commander of Army

This photograph shows a section of an enormous crowd of Greeks in front of the National Palace in Athens, just before the order for the mobilization of the army. King Constantine, who was reared in Germany and was trained in the German army,

signed the order only after a long argument with the premier, following the mobilization of the Bulgarian army. The action of the premier in permitting the allies to land troops at Salonika with only a formal protest was sustained by parliament, but

the king disagreed with Venizelos, and his resignation followed. Later all the members of the cabinet quit. Prince Nicholas is now in charge of the Greek troops mobilized near the forces of the allies at Salonika.

LATEST WAR NEWS

TO CONSTANTINOPLE IN 5 WEEKS

(By United Press)

Berlin, Oct. 21.—A high official in the foreign office says the Germans will have a way cut through Serbia to Constantinople within five weeks. There great quantities of food supplies will be secured. They will have anatholian cotton and wool, which makes American cotton unnecessary. Then will really begin the war on England by striking Egypt and the Suez. We have enough of France and Russia to insure peace.

OCCUPY SERBIAN TOWN

MEXICO BORROWS

\$10,000,000 IN GOLD

New Orleans Bankers Lend Sum to Carranza.

to Carranza.

New Orleans, Oct. 21.—New Orleans bankers announced that, as a result of the recognition of the Carranza government, they closed contracts to lend \$10,000,000 in gold to the Mexican administration.

It was also announced that arrangements had been made to handle the entire Mexican sisal crop through New Orleans; that the sisal operators of Yucatan and Campeche were to erect a million-dollar manufacturing plant here to handle their raw product.

SUFFRAGE BEATEN BY 56,707

Returns Dissipate Hopes of Advocates Their Vote Would Increase.

Trenton, N. J., Oct. 21.—Hope cherished by New Jersey woman suffrage supporters that the defeat in Tuesday's election of the proposed amendment to the state constitution, giving suffrage to women, would not be as great as earlier reports indicated, vanished when more returns increased the majority against the proposition.

With 115 districts still to be heard from out of the 1,891 districts in the state the majority against suffrage was 56,707.

The total number of reported districts showed for suffrage, 140,227, against, 196,934.

60,000 FOR NAVAL RESERVE

This Is Number of Men Navy League Is Planning to Enroll.

New York, Oct. 21.—The naval reserve committee of the Navy league at a meeting took steps to raise 60,000 men for the naval reserve.

It was arranged to get into the reserve every man who has been in the navy of the United States and pledge every one of them—30,000 in number—to bring into the naval reserve at least one other man.

Naval reserve week to be observed in December in every city of the United States was another feature of the program prepared to arouse a nationwide interest in building up a naval reserve.

BOTH SIDES ARE MINING

Little Actual Fighting Occurs on Gallipoli Peninsula.

London, Oct. 21.—A British official communication dealing with the operations on the Gallipoli peninsula was made public here and says:

"The general officer commanding the Mediterranean expedition reports that during the last week there has been little to report as regards the operations above ground, but on both sides mining activities have been considerable."

The public sale will begin about Dec. 1.

SAYS LID WILL BE SHUT TIGHT

Cato Sells Asserts Many Saloons Must Close.

HITS NORTHERN MINNESOTA

Indian Commissioner Predicts That by Nov. 1 the Anti-Liquor Law Will Be Enforced in the Entire Territory Embraced by the Treaty of 1855.

Lake Mohonk, N. Y., Oct. 21.—Cato Sells, United States commissioner of Indian affairs, whose administration has been criticised at the Lake Mohonk conference on the Indian and other dependent peoples, announced that he had decided against the brewery and distillery interests in the fight over the right to sell liquor in the towns on the Indian reservation of Minnesota.

"By Nov. 1," said the commissioner, "the anti-liquor law will be enforced in Minnesota in the whole territory covered by the treaty of 1855." Commissioner Sells displayed a telegram, just received from Henry A. Larsen, chief special officer of the Indian bureau at St. Paul, announcing that he already has begun to serve notice on saloon keepers in Hibbing and Chisholm, where the fight centered.

The commissioner declared that the preservation of the Indians' health was the heart of the Indian problem. The first big step to this end, he said, was to banish whisky from the reservation.

MAY FILE AS REPUBLICAN

Congressman Schall Declares He Is Not Hidebound.

Minneapolis, Oct. 21.—Congressman Thomas B. Schall, elected last year on the Progressive ticket as the first representative from the new Tenth Minnesota district, may file for reelection next year as a Republican.

"I have not decided," said Mr. Schall. "I am not hidebound in such matters. I always considered myself a Republican until after the Chicago convention of 1912. The next Republican convention is likely to settle the question whether the Progressive party is to continue as a factor. If the Republican party takes a progressive stand I see no reason why the work should not be carried on under the old name."

Mr. Schall goes to Washington next month to begin his service and will be one of seven house members elected as Progressives.

GINSENG THIEVES ACTIVE

Roots Worth \$1,000 Taken From Sheboygan County Gardens.

Sheboygan, Wis., Oct. 21.—The third recent raid on Sheboygan county ginseng gardens was reported to the authorities by the Plymouth Ginseng company, between Sheboygan and Plymouth. The robbers took nearly \$1,000 worth of roots from three to five years old, pulling them indiscriminately from the two acres of the company's gardens.

Like the last two raids, in which there were nearly \$21,000 worth of roots taken, the thieves used an automobile and disappeared in the direction of Fond du Lac.

They did not confine their raid to the ginseng, however, but also blew open the safe in the Plymouth office of the Sheboygan County Cheese Producers' association and stole \$200.

TRANSPORT SINKING DENIED

Only German Commercial Steamers Have Been Lost in Baltic.

Berlin, Oct. 21.—Denial is given in a semi-official statement issued here to the Russian report that six German transports have been sunk in the Baltic.

Only commercial steamers, the statement says, have been sunk and several of these have been sent to the bottom within Swedish territorial waters.

British Lose 358 Vessels.

London, Oct. 21.—Official announcement was made that the total number of British merchant vessels, exclusive of fishermen, sunk by submarines to Oct. 14, was 183. The number of fishing vessels sunk to that time was 175.

KOREA GETS FIRST SEALS

First Order to Red Cross Comes From Faraway Country.

New York, Oct. 21.—The first order for Red Cross Christmas seals has come from Faraway Korea, it was announced by the New York committee on the prevention of tuberculosis.

The public sale will begin about Dec. 1.

SAY WOMAN ADMITS SLAYING PEDDLER

San Francisco Police Obtain Her Confession.

San Francisco, Oct. 21.—Police officials, after "sweating" Mrs. Mary Parnas and John Parnas, her husband, for four hours, said they were convinced that she alone hacked to pieces the body of Michael Weinstein, a crippled peddler, in her apartment, and that they probably would release the husband.

According to the police the woman confessed she killed Weinstein when he attacked her after she had refused to elope with him.

Weinstein's arms, legs and head were severed and the trunk cut into several pieces. Each piece was wrapped in newspapers. Weinstein's wooden leg and crutch were placed on top.

Fragments of torn letters were found under the couch. Charred papers were in a stove.

\$100 REWARD.
The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

PROGRAM OF SONG RECITAL

Miss Elizabeth Armstrong Will Sing a Number of Old French and Old English Songs

MODERN GERMAN AND ARIAS
Modern French and an English Group a Most Ambitious Program of Great Variety

Miss Elizabeth Armstrong will sing a number of old French and old English songs, arias, modern German, modern French and English compositions, a most ambitious program, at her song recital on Friday evening, October 29, at the Brainerd opera house where she appears under the auspices of the Brainerd Musical club and the Elks lodge of Brainerd.

Miss Armstrong is widely known to the music lovers of Brainerd, for she has sung at many functions and the quality of her voice has been further improved by constant study in New York city at the studio of Oscar Seagle and other metropolitan masters.

The accompaniments will be played by Mrs. Clyde E. Parker of this city, who is famed for her broad musicianship and her mastery of the piano.

Edwin Harris Bergh will play two violin solos, the second concerto by Godard, opus 131 and "Walther's Prize Song from the Meistersinger by A. Wilhelmj. Mr. Bergh is a violinist whose reputation as a soloist, instructor, and director is state-wide.

Miss Armstrong will sing these songs:

Women Conductors Gabble Too Much

BY WILBUR S. FORREST
(United Press Staff Correspondent)

London, Sept. 29 (By Mail)—Women tram conductors have come to stay—at least in England.

In her fight for emancipation, the English-woman has established her right and ability to hold the rear platform. Serious consideration is even being given to ceding her the front platform. Motor-women seems a question of but a few months.

Since the beginning of war, women have been employed as conductors in Germany, France, Italy and England. Nearly 2,000 now have permanent positions. Another 15,000 have applications on file. From these every vacancy is being filled in preference to men.

The crowning culmination came when the seal of official approval was placed upon her employment by the Municipal Tramways association of the United Kingdom, in annual conference. There was not a single protest against her employment and when the proposal of "motor-women" was made cries of "Why Not?" rang from all parts of the room.

The assembly found that woman trolley car conductors brought certain problems and these were discussed.

The delegates from Glasgow, where nearly 1,000 women are employed, stated it was feared the skirts of the conductors would prove an impediment in winter in running up and down stairs on the double-deckers.

The Glasgow corporation proposes to remedy this by furnishing the women conductors with gaiters.

Glasgow has been so won to the woman conductor idea that a permanent school of instruction has been opened. A ticket-inspector is the teacher.

Each pupil is put through the process of inquiring the destination, issuing and punching tickets, and calling stations until she is letter perfect in her route.

One of the few complaints registered against the women was their lack of appreciation of the value of time. They find it difficult to realize that the matter of being a few moments late in signing on or in taking up a relief is serious. The companies are trying to overcome this difficulty through inspectors.

One of the most frequent causes for this delay it was reported was that "a woman conductor had something to say to another woman and would not go on duty till she finished it."

At the Glasgow school, while one woman is being put through her recitation the others listen. This acquaints them with all routes in the city.

It was agreed that women between 24 and 35 make the best conductors. Their influence has been all for the best. Even on the "roughest and toughest" routes they can control obstreperous passengers better than the men conductors.

So successful has been their work, that the congress decided to ask the county council of London to remove its ban against their employment. London is the one city in the British Isles that so far has held out against them.

HEATING PLANT BARROWS SCHOOL

Is Being Installed by the Sherlund Co. of Brainerd, Completed in a Week

SCHOOL BOARD HAS MEETING

State Road Between Barrows and Brainerd Improved—Other Barrows News Notes

Barrows, Minn., Oct. 21—Material for the heating plant to be installed in the Wilson school arrived Tuesday, and the work of installing the same commenced Wednesday and will be rushed with all possible speed so as to get heat turned on within a week. The Sherlund Co. of Brainerd are the contractors doing the work.

The school board of district No. 10 held a meeting Monday evening to transact important business of the past month, which had been delayed on account of the absence of Director A. J. Gile.

M. D. Stoner of the Cuyuna Range Power Co. was here Monday looking after work on the electric pole line to the Rowley mine. Mr. Stoner stated that the work will be rushed as fast as possible, and that current will be turned on in a very short time. Rev. S. W. Hill of Brainerd conducted services at the Methodist church here Sunday. He delivered a very good sermon to a good sized audience and all were very much pleased.

A large crew of men and several teams have been working on a road east of town during the past week under the supervision of Levi Bailey.

F. O. Young has been working on the state road between Barrows and Brainerd the past few days. A grader has been used in filling up holes and leveling the entire road.

Tony Green returned Tuesday from Woodrow where he has been working at the carpenter trade the past few weeks.

Wm. Hoffstead representing the Duluth Herald was a town business caller Tuesday.

Mrs. J. R. Parham is recovering from a spell of nervous break-down of the past few days. She was very sick for a few days and Dr. E. F. Jamieson of Brainerd was called.

C. E. Merry of Cass Lake was in town looking after his interests here and also visited the Rowley mine.

Walter Janesky of Virginia spent the week end with relatives and friends in town.

A. Quackenbush of Smithville spent a few days here last week visiting

his parents and looking after his property.

Miss Lorna Janesky returned Monday after spending the summer with relatives in Virginia.

Walter Ludlow of the Crow Wing country was here Monday looking for potato pickers. Mr. Ludlow has from 600 to 800 bushels to dig and reports the yield very satisfactory.

MUSIC AND DRAMA

At the Grand

Today and Friday already well known as Metro days will this week find the Grand showing an exceptionally fine drama of the sea "The Flaming Sword." Jane Gray and Lionel Barrymore both Broadway favorites have the leading roles. The orchestra tonight will accompany the picture with Grand Opera and popular music. Starting from Nov. 1st Mr. Bergh has more musical novelties and orchestra numbers in store for music fans than ever heard here in a moving picture theatre.

WAR NEWS ONE YEAR AGO TODAY

* The Franco-Belgian coast battle continued, Allies blocking various German onslaughts. Germany claimed the capture of 20,000 British and many machine guns at Lille.
* The Prussian Diet voted \$375,000,000 more for war.
* Chancellor Delbruck declared Germany would fight to lasting peace.
* Austro-Germans continued to drive the Russians back in Galicia and Bukovina, Vienna said.
* The German army's left wing retreat from Warsaw continued and 2,000 Austrian officers and men and many machine guns were captured in Galicia, Petrograd claimed.
* England released one, but held two other, American oil ships, while America filed another protest. England asserted the oiler Brindilla, held, is German-owned.

Moonshiners are Sentenced

(By United Press)

Fort Smith, Ark., Oct. 21—Federal Judge Youmans this afternoon sentenced the men who pleaded guilty in the moonshine conspiracy cases. John Gasper, a Kansas City distiller, was given nine years and a three days in the Leavenworth penitentiary and \$33,000 fine.

FLEET WILL DECIDE WAR

British Statesmen Express Confidence in Navy.

London, Oct. 21—"Germany aims at world domination and against world domination the British fleet from the time of Queen Elizabeth to the present day always has been found the surest and most effectual protection," is the contribution of A. J. Balfour, first lord of the admiralty, to the Navy league's symposium in connection with observance of Trafalgar day.

Winston Spencer Churchill, former first lord of the admiralty and at present chancellor of the Duchy of Lancaster, writes in part:

"For six months no hostile flag has flown outside the Baltic. We are stronger than ever and incomparably better adapted for war conditions.

"The great strategic conclusions upon which our naval disposition is based have been vindicated. From its shrouded throne amid northern storm, the grand fleet dominates and will finally decide the fate of the warring nations and by that formidable combination, strength and patience, will secure the victory of our just cause."

FIGHTING SOUTH OF RIGA

Germans Trying to Reach Baltic Province Port.

London, Oct. 21.—Battles south of Riga, where the Germans have made some progress at the new thrust at the Baltic province port, and in Volhynia and Galicia, where the Russians have gained rather important victories, are now competing in interest with the operations in the Balkans.

The Germans have concentrated very large forces, with a great amount of artillery, south of Riga, and as a result a stubborn battle has been in progress for several days. Field Marshal von Hindenburg, who is in command in this region, reported two days ago that his forces had reached the River Dvina, but, as on previous occasions, this broad and fast running waterway appears to have held him up for the time being.

CITY IS KNOWN BY ITS STREETS

Urged that Everything Possible be
Done to Improve Deplorable
Condition of Streets

BOND ISSUE IS FAVORED
Another Says Let Streets as They are.
Business Men Threw Away
\$21,000 Last Spring

The postal card canvass which is being made by the Streets and Boulevard Committee of the Chamber of Commerce to learn the sentiment whether in favor of a bond issue with which to pave street crossings intersecting blocks against which levy has been made, or whether in favor of an additional tax levy has resulted in a wide variance of opinions being expressed. The committee sent out over 400 postals to members and voters in the city with a request that they be returned promptly. Each mail sees a return of the cards and it is planned by the committee to report at the next meeting of the Chamber which is to be held on Wednesday, October 27th, and upon action by the organization present the results of the canvass to the city council with a request that immediate action be taken. Those having failed to return the postals are requested to do so at once which will greatly facilitate the efforts of the committee when presenting the facts to the council.

The opinion expressed by the majority favors the issuance of bonds together with an amendment of the city charter for an increase in the tax levy. Others do not favor either while some are satisfied to allow the streets to remain in the present condition.

The following are a few of the opinions expressed as copied from the cards:

"I am in favor of public improvements, especially street improvements. We can better afford increased taxes than have the name of a 'Has Been' town."

"I am in favor of putting Brainerd streets in a passable condition at any cost."

"I am in favor of doing anything to improve the deplorable condition of our streets. 'A city is known by its streets.'"

"I am in favor of a bond issue providing assurance is given that an at-

tempt will be made to amend the Charter in order to increase the tax levy to take care of the interest on the bonds."

"I am most decidedly in favor of a bond issue. Its the only sane course open for the city to adopt under the circumstances. Should be done at earliest possible date."

"I am in favor of bonding our city to improve our streets. Think our main streets are a disgrace to the city."

"I am in favor of shutting off the lights before election. Bonds will then carry without doubt."

"I am in favor of the voters who put the city in its present difficulty paying the cost."

"I am in favor of postponing the matter until the financial conditions of the country are more settled. Other cities are in the same 'boat'."

"I am in favor of leaving the streets the way they are. The business men threw away twenty-one thousand dollars last spring, so let's say nothing about it."

"I am in favor of leaving the streets the way they are for the present. Let the Council dispose of the up-to-date fire truck and use the money to pave the streets."

Print Newspaper Assistance

Washington, Oct. 21—"The smaller newspapers of the country have to their credit one of the really great achievements of the last few years—I mean the spread of compulsory education," declared W. Carson Ryan, Jr., editor of the United States Bureau of Education, in an interview with the United Press.

"Two years ago there were six states without compulsory education laws; today there are but two. The change is largely due to the smaller newspapers."

"Here, in the Bureau of Education, we have learned from years of experience to depend upon the paper of this type."

"It is a curious thing that much of the educational progress of today is being made in the smaller towns. The big city has the system, the organization, the discipline; but the smaller city is apt to have the independence and spirit that makes for progress."

"The smaller newspaper is notable for its boosting of progressive ideas. It is apt to be in closer touch with its constituency."

MANDAMUS CASE HEARD IN MORNING

Entire State Tax Commission Appears
Before Judge W. S. McClenahan
This Morning

REGARDING A BAGLEY BANK

Petitioners Claim Bank Stock Assessment of First National Bank of Bagley Too Low

Proceedings believed to be the first of their kind, wherein the entire State Tax Commission, J. G. Armon, Senator Samuel Lord and Judge James T. Hale appeared in district court chambers before Judge W. S. McClenahan to answer mandamus proceedings, brought by G. P. Jones and others of Clearwater county, in what is known as the First National bank of Bagley case, were heard this morning.

It is charged that the assessment of bank stock was too low and the claim is made that all the commission did was to order a re-assessment of all the banks in Bagley.

The petitioners Erick E. Lindom, G. P. Jones, C. Christofferson, Nils C. Ortendahl, B. T. Johnson and Alexander Haugh ask further that the tax commission make a due and proper investigation of the case and proper record of its proceedings and also to compel the bank to pay taxes on the full value of bank stock and not on a 50 per cent basis, affecting also taxes from 1908 to 1911.

Appearing for the tax commission is Assistant Attorney General William J. Stevenson and for the petitioners, Monteville J. Brown of Bemidji.

Questions regarding taxation of national banks under federal laws, of jurisdiction of state courts over the tax commission and other points may be involved.

Shortly after the reading of the complaint by Attorney Brown, Mr. Lord was called to the stand. He stated he had been a member of the tax commission since its organization. He identified various letters. Mention was made of one from the comptroller of currency at Washington.

GRADE CARDS ISSUED

Pupils Named on Honor Roll Who Averaged Above 90 Percent in High School

Grade cards were issued on Monday for the first six weeks' period in the high school. Following the custom inaugurated last year of posting an honor roll of pupils who average above 90% these students were so honored after the first report:

Ruth Alberts.
Edith Bennington.
Melville Bredenberg.
Dorothy Carmichael.
Alfred Dillan.
John Downie.
Georgia Frost.
Marie Gibson.
Edwin Lee.
Mildred O'Brien.
Dagmar Olson.
Henrietta Otterson.
Gladys Peterson.
Arthur Rosenlund.
Alfred Terro.
Ruth Thayer.
Edna Thompson.
Ruth White.

Of this number Alfred Dillan ranks highest and John Downie second.

Parents whose children are not doing as well in school as they ought should compare their reports with the general class averages. The average of all senior grades was 84.93% of all junior grades 84.47%; sophomores 82.46%, the freshmen outranking the sophomores with a general average of 83.11%.

The Security National Loan company is being blamed for some of the falling off in bank time deposits. Allegation denied. A wave of Democratic Property has struck "em." Advt. 116tf

AUTOMOBILE ASSOCIATION

Brainerd Automobile Association Organized Tuesday Evening with Membership of 25

DR. J. A. THABES IS PRESIDENT

By-laws Adopted—Over 200 Automobile Owners in City—Over Half Expected to Join

Not to be outdone by other progressive counties throughout the state, Brainerd business men last evening waxed enthusiastic and organized the Brainerd Automobile Association with a charter membership of twenty-five. It is expected that this number will be brought up to the hundred mark within the next few days. Each member present was appointed a committee of one to solicit new members.

After a reading of the by-laws and an outline of the benefits to be derived from such an association the by-laws were adopted and the following officers elected:

President—Dr. J. A. Thabes.
Vice President—C. W. Hoffman.
Treasurer—O. A. Peterson.
Secretary—C. E. Hansing.

It was stated that there were over two hundred automobile owners in the city of Brainerd alone and it is expected that the campaign for members will result in over half this number joining. The Association is to take in the entire county, any owner of an automobile or advocate of good roads being eligible. Living within the county. The meeting was adjourned to Monday evening, October 25th, when a board of governors will be elected which together with the officers will have charge of the affairs of the association. The advisability of joining the state and national associations will also be discussed together with other matters directly affecting owners of motor vehicles. Every owner of an automobile is invited to attend.

GIRLS! DRAW A MOIST CLOTH THROUGH HAIR. DOUBLE ITS BEAUTY

Try This! Hair Gets Thick, Glossy,
Wavy and Beautiful at
Once

Immediate?—Yes! Certain?—that's the joy of it. Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and beautiful as a young girl's after a Danderine hair cleanse. Just try this—moisten a cloth with a little Danderine and carefully draw it through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt or excessive oil, and in just a few moments you have doubled the beauty of your hair. A delightful surprise awaits those whose hair has been neglected or is scraggy, faded, dry, brittle or thin. Besides beautifying the hair, Danderine dissolves every particle of dandruff; cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair, but what will please you most will be after a few week's use, when you see new hair—fine and downy at first—yes—but really new hair growing all over the scalp. If you care for pretty, soft hair, and lots of it surely get a 25-cent bottle of Knowlton's Danderine from any drug store or toilet counter and just try it.—Advt. 116tf

HOPES TO STOP ZEPPELINS

British Admiralty Doing All It Can, Says Civil Lord.

London, Oct. 21.—Speaking for the government in the house of lords the Duke of Devonshire, civil lord of the admiralty, said the admiralty, which is responsible for the air defense of London, is doing all possible adequately to meet the Zeppelin menace and, although the problem is not an easy one, it hopes to be able to make the defenses of London satisfactory. The duke said there was no evidence that any Zeppelin dirigible had been brought down by gunfire either on the latest or the previous raid.

"Have These Mountains Removed at Once"

(By United Press)

Panama, Oct. 21.—These hills and valleys and various other pieces of Panama geography that have been lumbering around and falling into the canal so carelessly and getting it all stuffed up, have peeved Gov. Goethals. So today he pointed out a couple of mountains that he said were causing all the trouble and instructed his men to "take 'em away."

"What, the mountains?"
"Yes, the mountains."
"You mean you would like these mountains removed."

"Precisely. Move 'em—at once."

The mountains, be it added, began moving today. It's really a small matter. Moving a few mountains more or less is of slight concern to Goethals. Chopping a hole in the face of the earth and building a young sea to connect a couple of others—that didn't dismay him. Why stop at shunting mountains around?

"Construction days" are being repeated in Gaillard Cut, formerly known as Culebra Cut. A score of big dredges and steam shovels and an army of workmen are removing thousands of cubic yards of earth from the recent slides from Gold and Contractors' Hills.

Gov. Goethals a few days ago expressed hope of reopening the canal Nov. 1, but the date may be extended. Nearly 200 vessels, held up by the slides since the latter part of September, wait at the docks at Balboa, the Pacific terminal, and Colon on the Atlantic.

"When will the slides permanently stop?"

"That's as easy to predict as the end of the European war," is the answer.

The removal, bodily, of the two mountains Gold and Contractors', being blasted away and the earth sluiced down to fill hills and valleys a mile distant, is expected to stop the slides.

That the slides will sometimes stop forever—"some day"—is certain. This is confidently stated by Gov. Goethals. The worst slides, it is believed, are now over. The last was the worst since the "big ditch" was opened.

"Shoring off" of the precipitous mountains which form the giant boundaries of Gaillard Cut is the gradual, slow process which will prevent future slides.

The peculiar geological formation of the Panamanian mountains makes this feat difficult. Instead of firm rocks or sandy subsoil, interlaced by heavy forests, like the Rock Mountains, those of Panama are shelving hills of red and yellow clay, covered with tropical trees of small stature and undergrowth which does not "knit" the loose soil.

The "slides" are not an avalanche of rock and earth from the top of the mountain peaks, but a movement from below. As the base of the slanting cuts weaken through seepage of rains and water in the canal, the earth softens and is pressed downward and outward, into the canal channel by the heavier and more composite masses above.

The slide movement occurs comparatively slowly. It is detected by encroachments from the base of the

WHAT WEEKS WAR MOVES MEAN

By J. W. T. Mason, for United Press

New York, Oct. 21.—Mid many confusions and contradictions in the reports of the Serbian campaign it is not yet apparent that the Serbs are being beaten by the Austro-Germans-Bulgarians. Points here and there have fallen to the invaders, but the main defensive positions of the Serbian army have not been taken. A small part of the fringe of the little country has passed into the enemy's hands. Outwardly the most important victory of the invaders is the capture of Vranja, whereby the railway between Salonika and Nish has been cut. But Vranja is 150 miles north of Salonika and if the Anglo-French force going to the relief of the Serbs reaches as far into Serbia as that the cutting of the railway will make very little difference. The Bulgarians will have to protect the country they have made by engaging the allies in battle. If the allies win in the field fighting the repairing of the railway will be but a minor difficulty.

The Austro-Germans have abandoned two of their three Serbian offensives, those over the Slave and Drina rivers and are concentrating in Northwestern Serbia, across the Danube. This change in the original plans is due to the pressing need for getting into Bulgaria as soon as possible and affecting a consolidation with the Bulgarian armies. The necessity for making sure of the possession of the single trans-Bulgarian railway line that runs into Turkey is all important for the Teutons. The advance of the Anglo-French troops into Bulgaria does not yet threaten this railway but both sides are preparing for a race to dominate it.

The Bulgarian movement in Macedonia Serbia is progressing more favorably than along any other part of the border. At one point toward Ishtip, an advance of about 50 miles has been made from the Bulgarian boundary. But this offensive cannot be a serious menace. It is open to a dangerous flank attack by the allies at Strumitza, for which reason probably only a light, highly mobile force is penetrating along the Ishtip line. From the standpoint of the main interests at stake—the reinforcement of the Turks, the Balkan situation is for the moment more encouraging to the quadruple entente than to the Teutons.

bluffs. Sometimes the movement is so speedy that dredges and tracks are covered. Generally the earth at the base slowly mounts and is pushed until it encroaches into the channel.

When the upper part of the hills are cut away to such an angle that the pressure upon the earth beneath is removed, the slides will stop. The recent slides were expected.

As an expedient minimizing slide danger, parts of the towering hills have been cut away, in sections, or terraces, like a steep lawn is terraced to prevent erosion and "cave ins." The same principle, on a gigantic scale, will stop the slides.

Gold hill has been known as the Jonah of the "Cut." Contractors' Hill, another source of bad slides, is almost straight across. These are the only two important slide danger points remaining in the "Cut."

When construction was first begun, the slides of Gold Hill were almost perpendicular. Now they have been cut away to a very slanting angle and will soon be reduced to a point where slide danger will be almost removed.

GLASS OF SALTS CLEANS KIDNEYS

If your Back is aching or Bladder bothers, drink lots of water and eat less meat.

When your kidneys hurt and your back feels sore, don't get scared and proceed to load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild, harmless salts which removes the body's urinous waste and stimulates them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours they strain from it 500 grains of acid and waste, so we can readily understand the vital importance of keeping the kidneys active.

Drink lots of water—you can't drink too much; also get any pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning for a few days and your kidneys will act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate clogged kidneys; also to neutralize the acids in urine so it no longer is a source of irritation, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep their kidneys clean and active. Try this, also keep up the water drinking, and no doubt you will wonder what became of your kidney trouble and backache.

MAINTAINING STRICT GUARD

Men Are Being Kept on Board the

Two interned German Sea Raiders at Norfolk Navy Yard and Search Is Being Made for the Six Officers Who Broke Their Parole.

Washington, Oct. 21.—State department officials are considering the form of a communication which may go to the German government regarding the escape of two commissioned officers and six warrant officers from the interned German commerce raiders at the Norfolk navy yard.

Acting Secretary Roosevelt of the navy department sent to Secretary Lansing a formal report on the escape of the men, his letter following a conference with the secretary of state.

If it is determined from the report that the general parole covering all officers and men of their crews, given by the commanders of the Kronprinz Wilhelm and the Prinz Eitel Friedrich when the ships were interned, can be construed as a personal obligation upon the two commissioned officers missing from the Eitel, the German government probably will be asked to return Lieutenant Koch and Dr. Kroneck to the custody of the United States in the event they reach German soil.

May Use Detention Camp.

In the meantime strict guard is being maintained upon the two raiders and their ships' companies are being held closely to their vessels. Should it prove necessary care of the ships will be taken over by the navy and their crews transferred to detention camps ashore.

No trace of the missing Germans has been reported. Navy and treasury department ships have been instructed to maintain a close watch for them. Should the yacht Eclipse, upon which the six warrant officers from the Kronprinz Wilhelm put to sea be overhauled, the men would be returned to the Norfolk navy yard, even though they were found beyond the three-mile limit.

A precedent for asking for the return of the escaped men is found in the case of two Russian officers, who left an interned Russian cruiser at San Francisco during the Russian-Japanese war and made their way to Vladivostok. The Russian government promptly arrested the men and sent them back to San Francisco, where they remained until the end of the war.

Should the fugitives reach some other neutral country it is possible they would be returned to the United States as a matter of comity rather than through any international obligation that exists in such cases.

YOUR good will is of much value to us. We consider your friendship and patronage of great importance and we are keen to acquaint you with the special values we have to offer you in a moderate-priced, fuel-saving heater.

COLE'S Brilliant Radiant HARD COAL HEATER

(With Magazine Feed)

puts the ordinary old style base burner on the junk pile.

It has clearly proven that fuel is wasted in heating up heavy, useless cast iron ornaments.

It has unmistakably demonstrated that Cole's Hot Blast principle is true fuel economy—that its air tight draft control makes one ton of hard coal do as much as two tons in an air leaking representative of the old style heater.

If you are seeking fuel economy and heating efficiency, you have no other possible choice than this remarkable heater.

Take it from us that it has no equal. You will waste time to "shop around." We know and are telling you straight.
